# Introduction

---

In this, the 3<sup>rd</sup> Edition of our newest addition to the ELC Largest Companies Series, we have kept the coverage of 5,000 UK companies. A new section has been added ranking UK banks by assets (beginning on page 33). It is our hope to provide valuable financial and marketing data on the major public and private companies in the United Kingdom. We appreciate any comments on how we can improve the publication and recommendations on other titles to include in our Series.

## CD-ROM Version

ELC Companies Databases are now on CD-ROM offering excellent reference sources for corporate research departments and libraries. The CD-ROMs are highly cost-effective marketing tools, providing unlimited access to company contact details. The names and addresses can be downloaded and used as often as you wish – there are no additional charges once you have purchased the ELC International database.

## Company Rankings

Companies are ranked by turnover based on the most recently available reported accounts. Should you require more specific data on such accounts feel free to contact us at the addresses given at the beginning of this publication and we will be pleased to provide you with the information.

## For each company we provide the following information:

Rank — indicates comparative size within the table. Last year's position is also given.  
Industry Activity Code — a full list is given on the pages following this Introduction.  
The company headquarters, industry activity codes and financial data are given within the rankings.

## Alphabetical Index:

The alphabetical index refers the reader to the company ranking thereby making it possible to find the company financial details. The index contains full contact details including: address, city with postal code, telephone, fax, available website addresses and email as available. Also included in the index is the contact name of the company's senior executive with appropriate title.

## Financial Definitions

Sales - Net sales including service and rental revenue but excluding Value Added Tax  
Profit - Net profit before taxes and dividends. Losses are indicated by a minus sign.  
Assets - Total assets employed in the company at its year end.  
Shareholder funds - Share capital, reserves and retained earnings at the company's year end.  
Share Capital - Funds raised by issuing shares in return for cash or other considerations at year end.  
Employees - Average number of employees for the year.

## **NOTE FROM THE PUBLISHERS**

We are now gathering new data and information for the 2008 edition and would appreciate hearing from, or of, companies not included in the 2007 edition. Whilst we use our best efforts in the preparation of the material for inclusion in 'UK's 5,000 LARGEST COMPANIES', we do not assume, and hereby disclaim any liability to any party for loss or damage caused through errors or omissions in the publication whether these errors or omissions result from accident, negligence or any other cause.

## UNITED KINGDOM'S 250 MOST PROFITABLE COMPANIES
